KEY PERSONNEL

Jayen Vyravene

Jayen is a Director of Global Secure Solutions. He brings with him an extensive understanding and knowledge of the internal and external factors of governance, risk management, compliance and assurance for corporate entities across Africa. With him, comes more than 30 years of experience in the field of governance, risk management, compliance, assurance, and IT GRC. His corporate, training, and consulting role has been dominant in Mauritius, South Africa, Nigeria, Oman, Tanzania, Uganda, Botswana, Egypt, Namibia, Saudi Arabia and Swaziland. These experiences have involved him in diversity of sectors including financial services, utilities, logistics, IT, multimedia as well as government bodies.

He holds a post-graduate degree in Accounting & Finance, a GRC Professional and various certifications in risk management, compliance, IT GRC, he is also a Certified Trainer for OCEG, PECB and ERMA.

Edem Glymin

Edem is the lead technical consultant and Managing Partner for Global Secure Solutions. He has been engaged as a leading security and risk consultant in a MSSP SOC implementation project for one of the largest petrochemical companies in the world located in Saudi Arabia. He worked in close collaboration with a digital forensics team from Mandiant FireEye, providing security risk consulting and cyber security threat management services including threat intelligence, threat hunting, incident management and response functions in a global IT enterprise infrastructure spanning across the Asia Pacific, Europe, North and South America, Middle East and Africa regions. He is well versed in the architecture of enterprise IT security technology infrastructure and his knowledge of security technology products is vast, coupled with the experience of implementation and deployment of SIEM, advanced threat detection, monitoring, vulnerability management and log management appliances. He brings with him a wealth of knowledge and experience in understanding of network security, security operations, hacker techniques and tactics and security incident management. Building on over ten years of security industry knowledge and understanding, his corporate and consulting roles has spanned across the banking, information technology services, managed security services provider and petrochemical industries where he has played key roles in intrusion analysis, incident handling and response, breach detection, remediation and information assurance functions. He holds an honours degree in Management of Information Systems from the University of Portsmouth.

Edem is a PECB certified trainer and possesses specialised sets of analytic and computer security investigative skills. He is a certified information security professional with other professional certifications in security management standards, security incident management, hacker techniques and countermeasures.

Mikko Avikainen

Mikko Avikainen is the principal consultant for Global Secure Solutions. He has been working with information security since the year 2003. He has vast experience in telecom security, technical information security and business driven security as well as risk management. He has experience in delivering in demanding environments and working on 5 different continents. He has worked with several verticals, which include Telco/Mobile Operators, Oil & Gas Companies, Manufacturing Companies, Hospitality and Financial Companies performing ISO 27001 and PCI DSS Assessments. Delivery of cost efficient high quality GAP Assessments and remediation support has been perfected over the years. He is the lead trainer for PCI DSS certification training and ATM Security. He has experience in project management, consulting, technical tasks such as debugging code and system hardening as well as process development and optimization, HR consulting and Organizational improvement.
